

# NORDIC FLAME DAYS

**Turku August 28-29 2019**

## **Topics include:**

- Bio-energy with carbon capture and storage
- Flexibility of thermal fuel conversion systems
- Co-combustion and gasification
- Fuel characterization
- Diagnostic and in-flame measurement techniques
- Combustion process modelling and optimization
- Emission control and CO<sub>2</sub> mitigation
- Ash management and other residues

The meeting is arranged by the Finnish and Swedish national Committees of IFRF and the Scandinavian Nordic Section of the Combustion Institute. The meeting is hosted by Åbo Akademi University.

Local organizing committee: Anders Brink, Patrik Yrjas and Mia Mäkinen
